Sutton Benger History / Trails Newsletter

*Who or what is
'Benger Trails'?*

Benger Trails

Benger Trails will be an App, freely downloadable to your mobile devices, which will have easy-to-use local walks and cycling routes on it. The routes will be combined with historical information about Sutton Benger and the local area. The history is being researched, the app is being developed, and the first route is being prepared, in time for launch by Easter 2022.

This is all being done by a small team of villagers as part of Benger Arts (BArts), supported by the Parish Council.

Progress Reports

Newsletters

These Newsletters will appear on the Parish Council website, keeping you informed about progress on the App, and letting you know when and how you can download it.

History

Sutton Benger History

We will also use regular Newsletters to publish information about the history of Sutton Benger, Draycot Cerne and the Draycot Estate. If you are interested in learning more about the village, and want to be involved in the research in any way, please get in touch via the Parish Council website.
